Press Release:

FOR IMMEDIATE RELEASE

**The works of Mitali Chakraborty
on display at Barnstable Town Hall now through end of July, 2016**

HYANNIS, MA, DATE--The "Art on Loan" program which displays the work of local artists on the meeting room walls in Barnstable Town Hall, currently features the works of Mitali Chakraborty (Mitali) . Works are displayed in the Selectmen's Conference Room and the Town Hall Hearing Room, located on the 2nd floor in Barnstable Town Hall, now through July 31, 2016.

"Nature provides inspiration you have to just keep your eyes and heart open", says Mitali. "As an artist, I especially value the experience of embodying perspective and emotion in a tactile, multidimensional object.

Inspired by Nature, Driven by Soul shows through each and every piece I create. My pieces are a reflection of my thoughts on life, the world, politics, and nature just as I see it. "

Mitali's work has evolved from lace making (tatting) to blowing glass, flame-working and fusing glass; to working with copper and silver; to paper quilling, with painting and sketching always a part of her work and now she has combined all her skills and disciplines for this latest body of work.

"I feel very fortunate that I am able to put forward my views just as I see it to be preserved for the future---as one of my patron's said: ***'You see the world through a very unique lens. You see ordinary things in an extra-ordinary way.'***

My art is a compilation of all my travels throughout the world, life styles in different countries, trials and tribulations, birth and death. I am hoping, as you visit with me, you will experience the uniqueness of each piece."

More information on Mitali is on-line at www.CMitaliCreations.com

And email: mitali47@comcast.net

The Artwork on Loan program provides a venue for local artists to display their work. Visitors who use the meeting rooms will discover an inviting and attractive environment and have an opportunity to learn about some of the Cape's local artists.
